

G Janahan

Thanjavur, Tamil Nadu

janahang6@gmail.com – +91-6382352198 – github.com/janahan14775

Career Objective

Aspiring Full-Stack Developer with hands-on experience in building web applications using modern technologies and the MERN stack. Passionate about Machine Learning and Artificial Intelligence, eager to develop innovative solutions, solve real-world problems, and continuously expand my technical skills.

Education

B.Tech – Computer Science and Engineering

2023 – 2027

SASTRA University, Thanjavur

CGPA: 7.96

Technical Skills

- **Languages:** C, C++, Java, Python, JavaScript
- **Frameworks:** Django
- **Web Technologies:** HTML, CSS, React.js, Node.js, Express.js
- **Tech Stack:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Concepts:** Machine Learning, Deep Learning

Certifications

- **Introduction to Machine Learning** – NPTEL (2025)

Projects

Detection of Cognitive Impairment using FB-Net Architecture

- Designed and implemented a deep learning model using FB-Net.
- Achieved 74% accuracy in cognitive impairment detection.
- Performed preprocessing, feature extraction, and model evaluation.
- Implemented using Python and deep learning libraries.

CODX – Online Code Compilation and Document Editing Platform

- Built a MERN stack application with MongoDB and Monaco Editor for real-time code editing and compilation.
- Implemented rich text editing features including bullet lists, text alignment, image insertion, and formatting tools.
- Enabled document import/export functionality with PDF and DOCX support.

Grocery Shop Management System

- Developed a MERN stack-based inventory and e-commerce platform using MongoDB and Cloudinary.
- Implemented role-based features for stock management, product administration, and image handling.
- Built customer modules for product browsing, cart management, and order placement.
